

Environment	OS version:	Windows 10					
	Browser:	Chrome Version 96.0.4664.45					
Test Case(TC) ID	Section	Subsection	Steps to Reproduce	Expected Results	Status	Bug link with Title	Remarks/Actual Result
TC-01	Home Page	Verify home page is loaded with the link	1. Go to www.todo.scriveqa.com on your Chrome browser	1. Should redirect to the Todos home page	Passed		
TC-02	Page Header	Verify on click on the link on the header the correct page should be open.	1. Click on the page header "Todos"	1. Redirects to www.todo.scriveqa.com home page	Failed	Bug link: https://docs.google.com/spreadsheets/d/1WB73k5ZP84zlrZ17b6nVkiYUzXTOpuaSkcsutnNxhg/edit#gid=977457430&range=5.5 Bug Title: Clicking on the link of the header a new todo item is created	Clicking on the header, adds a new item in the list like below examples and its happening only once with saved data in the browser. Added list examples: Winter is coming. Hello, where did you just click? It seems you found a bug. Good catch. Please report it as a bug. I am nobody. Note: Only one item is added to the list with saved data in the browser. Tried different incognito windows to see the above examples
TC-03	Add New Todo Item	Verify that Add New Todo Item '+' (plus) button is clickable or not	1. Go to www.todo.scriveqa.com and observe '+' button on the footer 2. Click on the active '+' button on the footer 3. Click on the disabled '+' button on the footer again	1. '+' button is in active state and a text field to add a new item with place holder 'Add New' is displayed below the header 2. '+' button is disabled and text field is also not displayed on the screen 3. '+' button is in active state and a text field to add a new item with place holder 'Add New' is displayed below the header	Passed		
TC-04		Check Add New Todo Item text field is in focus, when page is loaded	1. Go to www.todo.scriveqa.com and check the page focus is on 'Add New' Text field	1. On page load, page focus is on the 'Add New' Text field Input	Passed		
TC-05		Add a new todo item using the text field	1. Go to www.todo.scriveqa.com 2. Type the new todo item in the textbox and press enter 3. Add more todo items	1. Page is loaded with focus on Add new Text box. 2. Creates a new todo item and shows below the Add New Text box with a unchecked check box 3. More new todo items are added to the list	Passed		
TC-06		Add a new todo item with lengthy text with more than 256 characters.	1. Go to www.todo.scriveqa.com 2. Type the new todo item with long text with more than 256 characters in the textbox and enter	1. Page is loaded with focus on Add new Text box. 2. A new todo item with more than 256 characters should be added to the list	Failed	Bug link: https://docs.google.com/spreadsheets/d/1WB73k5ZP84zlrZ17b6nVkiYUzXTOpuaSkcsutnNxhg/edit#gid=977457430&range=6.6 Bug Title: Add a new todo item with lengthy text with more than 256 characters.	Created an empty todo item with a unchecked check box
TC-07		Add a duplicate todo item	1. Go to www.todo.scriveqa.com 2. Type the new todo item in the textbox and enter 3. Now add the same todo list item that is added in the step 2	1. Page is loaded with focus on 'Add new' Text box. 2. Creates a new todo item and shows below the Add New Text box with a unchecked check box 3. Duplicates should not be added to the list because there is no date or additional reference field, so a user will not know a difference between the two same entries	Failed	Bug link: https://docs.google.com/spreadsheets/d/1WB73k5ZP84zlrZ17b6nVkiYUzXTOpuaSkcsutnNxhg/edit#gid=977457430&range=7.7 Bug Title: Can add duplicate todo items	Duplicate items are added to the list.
TC-08	Check and Uncheck the completed list	Verify todo List is in alphanumerical order	1. Go to www.todo.scriveqa.com 2. Type the new todo item in the textbox and press enter 3. Add more todo items with different numbers and alphabets 4. Check the list is in alphanumeric order	1. Page is loaded with focus on Add new Text box. 2. Creates a new todo item and shows below the Add New Text box with a unchecked check box 3. More new todo items are added to the list 4. Todo list is in the alphanumeric order.	Failed	Bug link: https://docs.google.com/spreadsheets/d/1WB73k5ZP84zlrZ17b6nVkiYUzXTOpuaSkcsutnNxhg/edit#gid=977457430&range=8.8 Bug Title: Todo List is not in alphanumerical order	Todo List is not in the alphanumeric order. When entering multiple items into todo list, items are listed in order of entry. There is no functionality to reorder the list so the user cannot assume the list is in priority order. List should be alphanumericized on entry
TC-09		Enter 50 new todo list items and check how list works	1. Go to www.todo.scriveqa.com 2. Type the new todo item in the textbox and press enter 3. Add 50 more new todo items into the list 4. There should not be a scroll bar for the created list	1. Page is loaded with focus on Add new Text box. 2. Creates a new todo item and shows below the 'Add New' Text box with a unchecked check box 3. More than 50 new todo items are added to the list 4. There is no scroll bar for the created list	Passed		
TC-10		Verify Checkbox is selectable or not	1. Go to www.todo.scriveqa.com 2. Add few todo items in the list 3. Check some todo items in the list 5. Uncheck the checked completed lists	1. Page is loaded 2. New todo items are added in the list 3. Completed list is checked and row is strikethrough 4. Strikethrough is removed and checkbox is unchecked	Passed		
TC-11	Search	Verify the Search button is clickable or not	1. Go to www.todo.scriveqa.com and observe search button on the footer 2. Click on the disabled search button on the footer 3. Click on the active search button on the footer again	1. Page is loaded and Search button is disabled 2. Search button is in active state and a text field to search the items in the list with place holder 'Search' is displayed below the header 'Todos' 3. Search button is in disabled state and the search text field is also not displayed	Passed		
TC-12		Verify Search results displayed should be relevant to search keyword	1. Go to www.todo.scriveqa.com and add few todo items in the list 2. Click on the disabled search button on the footer 3. Search for an item that is in the list 4. Should be able to see the Todo item that is searched from the list	1. Page is loaded and new todo items are added in the list 2. Search text field is displayed on the screen with placeholder 'Search' 3. Searched results are automatically displayed without clicking enter button 4. The search results are displayed	Passed		

TC-13		Search for a todo item that never exists	1. Go to www.todo.scriveqa.com and add few todo items in the list 2. Click on the disabled search button on the footer 3. Search for an item that is not in the list	1. Page is loaded and new todo items are added in the list 2. Search text field is displayed on the screen with placeholder 'Search' 3. Shows 'There are no items.' text below the search text box	Passed		
TC-14		Verify the 'All' button is clickable or not, active state and items results	1. Go to www.todo.scriveqa.com 2. Check the All button is in active state by default in the footer 3. Add few todo items in the list 4. Click on any other Active or Completed buttons on the footer other than All 5. Click on the All button again	1. Page is loaded 2. All button is selected by default 3. New todo items are added in the list 4. Active or Completed list is shown 5. All items are displayed	Passed		
TC-15		Verify the 'Active' button is clickable or not and items results	1. Go to www.todo.scriveqa.com 2. Check the All button is in active state by default in the footer 3. Add few todo items in the list 4. Uncheck some todo items in the list 5. Click on the Active button on the footer	1. Page is loaded 2. All button is selected by default 3. New todo items are added in the list 4. Some todo items are unchecked 5. Only Active items are displayed	Passed		
TC-16		Verify the 'Completed' button is clickable or not and items results	1. Go to www.todo.scriveqa.com 2. Check the All button is in active state by default in the footer 3. Add few todo items in the list 4. Uncheck some todo items in the list 5. Click on the Completed button on the footer	1. Page is loaded 2. All button is selected by default 3. New todo items are added in the list 4. Some todo items are unchecked 5. Only Completed items are displayed	Passed		
TC-17		Verify the 'Clear Completed' button is clickable or not and check the completed list is cleared or not	1. Go to www.todo.scriveqa.com 2. Check the All button is in active state by default in the footer 3. Add few todo items in the list 4. Uncheck some todo items in the list 5. Clear all completed Todo items from the list completely	1. Page is loaded 2. All button is selected by default 3. New todo items are added in the list 4. Some todo items are unchecked 5. All Completed Todo Items should clear from the list	Passed		
TC-18	Footer	Refresh the page after completed lists are cleared from the list	1. Go to www.todo.scriveqa.com 2. Check the All button is in active state by default in the footer 3. Add few todo items in the list 4. Uncheck some todo items in the list 5. Clear all completed Todo items from the list completely 6. Refresh the page 7. Repeat steps 4 and 5 again 8. Add a new item in the list without refreshing the page 9. Refresh the page	1. Page is loaded 2. All button is selected by default 3. New todo items are added in the list 4. Some todo items are unchecked 5. All Completed Todo Items are Cleared from the list 6. Cleared completed Todo items should not show in the list 7. Some todo items are unchecked and All Completed Todo Items are Cleared from the list 8. A new item is added in the list 9. Cleared completed todo items should not show in the list	Failed	Bug Link: https://docs.google.com/spreadsheets/d/1WB73k5ZP84zlrZ17b6nVkiYUzXTOpuaSkcsutnNxhg/edit#gid=977457430&range=9:9 Bug Title: Page refresh shows cleared data(but data is not showing if I add any new item)	1. Page is loaded 2. All button is selected by default 3. New todo items are added in the list 4. Some todo items are unchecked 5. All Completed Todo Items are Cleared from the list 6. Cleared completed Todo items are still shown in the list 7. Some todo items are unchecked and All Completed Todo Items are Cleared from the list 8. A new item is added in the list 9. Cleared completed todo items are not shown in the list now Observation: If a new item is not added after clearing the completed items and page is loaded, cleared items are still showing in the list.
TC-19		Check the Items count for All, Active and Completed items	1. Go to www.todo.scriveqa.com 2. Check the All button is in active state by default in the footer 3. Add few todo items in the list 4. Uncheck some todo items in the list 5. Click on All, Active and Completed buttons and observe item count on the footer	1. Page is loaded 2. All button is selected by default 3. New todo items are added in the list 4. Some todo items are unchecked 5. Item Count should change as per All, Active and Completed items count in the todo list	Failed	Bug Link: https://docs.google.com/spreadsheets/d/1WB73k5ZP84zlrZ17b6nVkiYUzXTOpuaSkcsutnNxhg/edit#gid=977457430&range=10:10 Bug Title: Items count for Active and Completed items are showing wrong count	Item Count is not changing as per Active and Completed items count in the list. Its always showing the full list that is available.
TC-20		Check Keyboard navigation using 'Esc' to cancel and '/' to Search and 'N' to Create a new list item is working or not	1. Go to www.todo.scriveqa.com and check the page focus is on 'Add New' text field 2. Observe "Press 'Esc' to cancel." text under the footer 3. Press 'ESC' button to cancel adding the new item 4. Observe "Press '/' to search and 'N' to create a new item." text under the footer 5. Press '/' to search the items 6. Repeat steps 2 to 5 once 7. Press 'N' to create a new item	1. Page is loaded with focus on Add New Text box 2. "Press 'Esc' to cancel." text is visible under the footer 3. Add New item text box is not displayed 4. "Press '/' to search and 'N' to create a new item." text is visible under the footer 5. Search text box is displayed 6. "Press 'Esc' to cancel." text is visible under the footer and Search text box is not displayed and "Press '/' to search and 'N' to create a new item." text is visible under the footer 7. Add New text box is displayed	Failed	Bug Link: https://docs.google.com/spreadsheets/d/1WB73k5ZP84zlrZ17b6nVkiYUzXTOpuaSkcsutnNxhg/edit#gid=977457430&range=11:11 Bug Title: Search '/' key is not working	Esc' and 'N' keys are working as expected. Using '/' key Search an item function didn't work. Nothing is happening with the '/' key. Search function works only with the Search button.
TC-21		Verify the full todo list is visible when '+' and 'Search' buttons are disabled	1. Go to www.todo.scriveqa.com 2. Disable the 'Add New' button and 'Search' button 3. Observe the full todo list is visible when '+' and 'Search' buttons are disabled	1. Page is loaded with focus on Add New text box 2. 'Add New' button and 'Search' buttons are disabled 3. Full Todo list is visible with all available items	Passed
